

Welcome

Skarnsundet is regarded as one of the best fishing places in the Trondheimsfjord because of its nutrient rich waters and strong currents that attract large shoals of feeding fish.

KAYAK FISHING
PACKAGE INCLUDES

In 2014 we launched the first ever kayak fishing park in Norway. This came about with a lot of input from the UK and Dutch kayaking anglers. We now have a great Kayaking product to offer.

Skarnsundet is a perfect location to enjoy a kayak fishing holiday. Due to its unique location, you have so much variety of fishing on your door step. Due to the settled weather we have in the northern end of the Trondheimsfjord, we have calm conditions for kayak fishing.

The kayak fishing and marks are varied. Much of the fishing is very local to the apartments so there is no need to paddle large distances to find the fish.

We also have a kayak trailer so we can transport the kayaks around to the most sheltered fishing places. Take a drive out to the coast to experience kayak fishing on the open sea or fish for wild brown trout and pike in the local lakes.
